

ZERO Tree Top Professional Harness Z+TH-050 HTP0468

Brand: Zero
Code: C5640

\$506.30 +GST \$582.25 incl. GST

Description

ZERO Tree Top Professional Harness Z+TH-050

The Zero Plus Professional Treetop Harness is the result of extensive collaboration and work with specialist arborist teams. The specifically designed arbour harness has added features to suit the unique requirements of professional tree climbers/arborists.

The reinforced bridge becomes an integral part of the workers natural balance thanks to sliding ring technology so the wearer is always in the centre of gravity, enabling maximum freedom of movement. Multiple tool loops are positioned on the wide padded waist belt, including a chainsaw rated attachment loop central to the back. Ideal for arbour work, vertical climbing and work positioning.

Breathable mesh fabric in the generous waist belt and leg pads gives the wearer support and comfort while helping to keep them cooler and dryer.

Features

- High quality work positioning belt with 2 side attaching D-rings.
- Reinforced front bridge for attaching to abseil or climbing rope.
- Large bridge sliding ring rated to 25kN.
- Sliding ring attachment point on bridge to keep wearer at centre of gravity.
- Access to bridge to add or change rings as required.
- Large leg supports with adjustable, elasticated risers for comfort without restricting movement.
