Code	Description	Price
C2728-4	425g Aerosol	\$22.90
C2728-1	1L Container	\$43.80
C2728-5	5L Container	\$167.25

Description

CRC Rust Converter

Available in a convenient aerosol or 1L pack for larger areas, CRC Rust Converter is a unique, fast-drying coating designed for the treatment of rusted surfaces.

It stops rust and prevents further rust forming.

CRC rust Converter neutralises the rust and transforms it to a tough black primer that binds tenaciously to the surface providing a waterproof barrier for effective long-lasting rust protection.

Eliminates the need for sandblasting, waterblasting, heavy scraping or grinding

Can be used either as a finish coat or painted over.

Available in an Aerosol or a 1L or 5L container.

Features & Benefits

- **Ready to Use** - No additional mixing or chemical additives required
- **Instantly stops rust**
- **One easy step** - Neutralises rust and converts it to an excellent tough black primer
- **Long-lasting** - Protects surfaces for years

Product Specification
