

Fuel Set (For Petrol and Diesel) 200ml

Code: C2851

\$37.90 +GST \$43.59 incl. GST

Description

Fuel Set (For Petrol and Diesel) 200ml

A Fuel Treatment That's Guaranteed

"Once fuel bugs become established, they will double in population every 20 minutes".

Having poor fuel economy? Are your engines seals, hoses and connectors swelling & blistering? Pumps & Injectors corroding easily? Fuel Filters, Fuel Lines and Gauges Clogging? Care about what this is costing you in fuel consumption and maintenance?

Here is the simple, proven, and cost effective ANSWER to clean your fuel systems and increase efficiency. Fuel Set – Fuel additive for Diesel & Petrol. This is a fuel treatment concentrate that will continually maintain a clean fuel system, a higher level of economy and performance of your engine, as well as revitalising stagnant fuel. **APPLICATIONS**

For use in Leaded or Unleaded Petrol and Diesel. Removes water from fuel lines, dissolves wax, gums and varnish deposits in the fuel system and injectors. Decarbonises combustion chambers, prevents fungal growth and burns away harmlessly. Use at the dose rate of 1:4,000. Except for the initial treatment fuel set should be used at 1:500 for the first use. Severely contaminated fuel systems may require a filter change. Regularly maintain the cleaned fuel system with fuel set.
