### Description

DAP® ALEX FAST DRY® Acrylic Latex Caulk Plus Silicone is ideal for projects that require painting shortly after caulk application. The caulk cuts standard waiting times by 90 minutes, forming a tough outer skin that is dry enough to paint over with both water and oil paints in only 20 minutes! Providing a durable, waterproof, resilient seal that is designed to prevent moisture and air from escaping through cracks and joints. Ideal for baseboards, corner joint, doors, ducts, eaves, moulding, piping and siding/trim. And adhering to most building materials such as brick, concrete, GIB, glass, metal, plaster, painted surfaces and wood. This easy to use, low odour and VOC is the perfect product to help you get the job done quickly.
