Description

Timbabuild ERC10 400ml Timbabuild®

ERC10 manufactured by Chemfix, is a two-part solvent-free 1:1 ratio mix, epoxy based wood filler & adhesive. It is specially designed for small repairs to timber which are subject to stress and impact or for splicing new timber sections. For repairs up to 10mm depth. It will also directly treat the timber to prevent any further occurrences of decay. It is also used as a powerful adhesive. ERC10 displays high strength and impact resistance, and is cured and ready to paint within a 1 hour period (at 20-45°C) for same day repairs. ERC10 is supplied in a specially designed side-by-side cartridge that fits into a custom made extrusion tool, accurately dispensing the material. Once cured, ERC10 can be machined, drilled and accepts nails, screws etc. ERC10 is coatable with most decorative wood finishes. This product has a minimum 24 month shelf life.
