Description

Full Circle Radius 360 Round Pole Sander 225mm The best way to sand walls. It won't flip over causing damage like the traditional rectangular versions.

The ability to change directions quickly without having to lift the pad off the wall is a huge advantage over the conventional method of sanding drywall. The detachable foam disc forms to the wall, providing a smooth, even finish. Unlike the conventional sand pole, this foam disc wears evenly, greatly increasing the life of the tool. Both the foam pad and the sandpaper utilize hook-and-loop backing, making for easy replacement. Loop backed sandpaper firmly attaches to the foam disc, preventing debris from collecting behind the sandpaper, and eliminating a major cause of streaking.

Sanding with the Radius 360° pole sander is up to three times faster than using a conventional sand pole, with consistently superior results.

- 225mm diameter
- Velcro backed sponge interface pad
- Quality aluminium construction
