Description

The Handy® Paint Tray Liners save you the hassle of clean-up by offering a no-mess solution to painting. They also allow for quick colour or product changes between coats. In addition to that, they extend the life of the tray by protecting it from wear and tear.

Designed to fit the Handy Paint Tray® perfectly, these liners also feature a deep well that can hold up to 3.78L (1-gallon) of paint at a time. As well as a built-in roll-off area suitable for roller sleeves up to 230mm (9-inches) in length. There are two snaps at each end which help to secure the liner to the tray, preventing it from moving around. Simply pour paint into the liner and start painting. When finished, use the corner spouts to pour any leftover paint back into the can and dispose of the liner. Made from 100% recycled plastic, these liners also come in a convenient three-pack.
