### Description

Armorgard Forma-Stor Flat-Pack FR300-T 2990mm

Dimensions: 2075x2990x2160mm

Forma-Stor – our flat pack container. A quick-assembly, modular solution for secure on-site storage. With theft of tools and equipment, we've designed a secure store that can be constructed in as little as 10 minutes. With 5-lever deadlocks and jemmy-proof joins, Forma-Stor is the most robust flat-pack solution available. Ideal for contractors needing quick and convenient storage, these walk-in units are constructed using galvanised panels that slot together. The result is a sturdy, weatherproof store available in 4 sizes. When you're ready to move on, Forma-Stor can be flat-packed or moved using forklift pockets or crane lifting eyes.
