

Armorgard InstaGate 6ft

Brand: Armorgard
Code: C4515-6

\$1,839.00 +GST \$2,114.85 incl. GST

Description

Dimensions: 450x542x1884mm

The next generation crowd control barrier.

This multipurpose unit can be easily moved and deployed by one person, to safely cordon off high pedestrian and vehicle traffic areas. Available in 2 heights - 4ft and 6ft, the InstaGate is robust and built to last with its lightweight, yet ultra-strong, powder coated aluminium frame. Ideal for indoor and outdoor use.

Coupled with its accessories: the linking kit and anchor kit, you can securely and safely fix the InstaGate to hoarding or a flat surface, and link to other units to stay connected. The linking kit allows for the barriers to pivot at any angle required. These purpose-built fixings make the barrier the ultimate solution.
