

Precast Concrete Panel Parapet Anchor

Code: C5684

\$485.00 NZD +GST

Precast Concrete Panel Parapet Anchor

Designed to provide a single worker with a portable temporary anchor point on panel walls 60-360mm of thickness. Applications include window washing, construction, emergency and rescue situations. One rubber padded fixed arm and one rubber padded adjustable arm (with multiple pin sets). Tightening to the parapet by use of the screw levers with padded rubber discs.

Features

- Load of application must be only directly downwards
- Suitable for fall arrest system anchor (fall arrest equipment must be worn, including lanyard with shock absorber)
- Load capacity 140kg
- Suitable for use as one of/off abseil anchorages.
- Rated to 1 person for abseil, 2 persons for fall arrest
