Petzl Rig Compact Selfbraking Descender

Brand:Petzl

Options

Code	Description	Price
C6286	Yellow	\$327.00
C1115	Black	\$391.50

Description

Petzl Rig Compact Self-braking Descender

- Designed for rope access work (expert users only)
- Multi-function handle allows the user to:
 - unlock the rope and control the descent with the hand on the free end of the rope
 - position himself at the work station without having to tie off the device
- The automatic return system on the handle limits risks in case of an involuntary action by the user
- Handle storage position reduces the risk of snagging when the descender is being carried on the harness.
- The gate on the moving side plate helps prevent dropping the device and facilitates rope installation when passing intermediate anchors
- Pivoting cam facilitates taking up the slack in the rope. Can also be used to make a reversible haul system, and for short ascents (in conjunction with a FOOTAPE or FOOTCORD foot loop and an ASCENSION handled rope clamp).
- Lowers heavy loads up to 200 kg (only for expert users; more information on this technique in the technical advice at www.petzl.com)
- Available in two Colours: yellow and black

Specifications

Min. rope diameter: 10.5 mmMax. rope diameter: 11.5 mm

Weight: 380 g
