

Petzl Ok Lightweight Oval Carabiner

Brand:Petzl

Options

Code	Description	Price
C6259	TRIACT-LOCK	\$45.45
C6260	BALL-LOCK	\$45.15
C6261	SCREW-LOCK	\$34.80

Description

Petzl Ok Lightweight Oval Carabiner

- Symmetrical oval shape allows optimal loading of devices with a wide cross-section, such as pulleys, rope clamps and mobile fall arresters
- Aluminum carabiner whose light weight reduces the weight of equipment the worker at height needs to carry
- May be used with a CAPTIV positioning bar to favor loading of the carabiner along the major axis, to keep it integrated with the device, and to limit the risk of it flipping
- Easier handling:
 - fluid interior design limits the risk of having a catch point and facilitates rotation of the carabiner
 - Keylock system to avoid any involuntary snagging of the carabiner
- H cross-section:
 - ensures an optimal strength/weight ratio
 - protects markings from abrasion
- Available in three different locking systems:
 - TRIACT-LOCK: automatic locking with triple-action gate opening
 - BALL-LOCK: automatic locking with triple-action gate opening, with lock indicator
 - SCREW-LOCK: the manual screw-lock with red band provides a visual warning when the carabiner is unlocked
- Also available in black (TRIACT-LOCK and SCREW-LOCK)

Specifications
