

Skylotec Double Tri Carabiner

Brand: Skylotec
Code: C6453

\$60.00 NZD +GST

Skylotec Double Tri Carabiner

The Skylotec Double Tri is the new generation of HMS Carabiner with 180° technology and smooth triple-locking mechanism for maximum safety - push up, turn and open. With the new Double carabiner series Skylotec has now an answer for all those who work and climb left-handed or use both hands. With the innovative design (180° spring rotation) the sleeve that closes the gate can rotate in both directions. Conventional Twist/TriLock carabiners can be turned only to the right; therefore, they are more difficult to use for left-handers. Can be used in accordance with mountaineering and industry standard.

Features

- Triple lock (push up, turn and open)
- Major axis breaking load 24Kn
- Minor axis breaking load 7Kn
- Breaking load open 8Kn
- Max opening 26mm
- Complies with EN 12275-H:2013 and EN 362:2004

[carabiner_size height="112" width="76" opening="26"]
