C6444	10M	\$305.00

Description

Skylotec MAGic Kernmantle Rope Fall Arrest Device

The Skylotec MAGic is an extremely light fall-arrest device. The device is movable up and down on the included rope. As soon as the MAGic tilts the brakes around the rope and the MAGic holds the secured person within an extremely short reaction time and without any unsettling tearing noises. This appreciably reduces the initial shock from the fall and the worker feels safe.

Ideal for use when working with power supplies, transmission lines and telecommunications.

Features

- Available lengths 5m, 10m, 15m and 20m
- Rope made from Polyamide
- Rope diameter 12mm
- Complies with EN 353-2:2002
