C1322-A	Aerosol	$25.35
C1322-1	1L Tin	$41.40
C1322-3	3.78L Tin	$73.40

Description

Zinsser Coverstain Primer-Sealer

Cover Stain is a high-performance general purpose oil-based undercoat/primer-sealer/stain blocker/bond coat that has the exceptional and unique feature of being fast drying with outstanding adhesion and stain-blocking ability.

Can be used for interior and exterior for walls, doors, trim, panelling, siding, and window frames – any surface where a fast-drying, high hiding, high adhesion undercoat is required.

Coverstain can also be used over any water or solvent based architectural paint

- Priming Interiors – Use to prime previously coated drywall, cured plaster and masonry, spackled areas, ceiling tiles, wood or metal doors, windows, cabinets, plywood, glossy paints, clear finishes etc
- Priming Exteriors – Cover Stain has excellent flexibility and penetration, making it ideal for full surface application to exterior siding and trim.
- Sealing – Cover Stain seals unpainted or porous surfaces so topcoats have better coverage. Ideal for wood – Cover Stain fills and binds wood fibres creating excellent ‘enamel holdout'
- Stain Blocking – One coat will effectively block stains including water, nicotine, ink, graffiti, crayon, marker, rust and smoke stains so they won't bleed into the topcoat. Some severe stains may require a second coat.
- Glossy Surfaces – Glossy enamel paint and clear finishes, ceramic tile, panelling, cabinets and metal surfaces can be primed without sanding or de-glossing
- Over Wallpaper – Cover Stain may be used to prime existing, soundly adhered non-porous wallcoverings to hide patterns and dark colours prior to painting
