

Skylotec BFD Y Flex Shock Absorber Double Lanyard

Brand: Skylotec
Code: C6440

\$218.00 NZD +GST

Skylotec BFD Y Flex Shock Absorber Double Lanyard

The Skylotec BFD Y Flex Shock Absorber is a personal energy absorbing lanyard designed to reduce the overall length of the lanyard by 73cm and is designed to effectively arrest a fall whilst minimising the shock loads on the body. The 'Tear Tape' technology shock pack utilises a controlled tearing action that is initiated when the lanyard is 'loaded' during the fall and limits the fall arrest forces to below 6kN.

The shock pack features a unique Velcro attach cover that provide 100% inspection as well as the potential to clean & dry the pack contents if necessary. The cover is also designed to protect the label pack, conveniently sewn into the tear tape material.

Features

- Length 2m
- On the lanyard ends FS 90 ST scaffold hooks
- On the shock absorber end snap hook 23Kn
- Complies with AS/NZS 1891.1:2007
