Description

QSI SBE2KQR - Full Body Harness with Lower Chest Loops & Quick Release Buckles

Our standard full body quick release harness. The SBE2KQR features two lower sternal webbing loop attachment points and a dorsal D-ring attachment point for fall arrest. The lower sternal webbing loop attachment points are well suited for use with rope or cable grabs and offer a comfortable position to work from, as well as rescue. High strength, aluminium quick release buckles are used on both the legs and chest.

Applications:

- General Use
- Construction
- Mobile Platform
- Roofing
