

## Festool CT Cyclone Pre-Separator CT-VA-20

**Brand:** Festool  
**Code:** C2428

**\$692.90 +GST \$796.84 incl. GST**

### Description

Festool CT Cyclone Pre-Separator CT-VA-20

Designed for CT 26/36/48 Vacuums.

**Copes with high volumes of dust. Efficient, simple and reliable.**

High volumes of dust, shavings and chips are no longer a problem for neither the main filter, nor for the suction power. The pre-separator (compatible with Festool CT mobile dust extractors) collects up to 95% of dust before it reaches the mobile dust extractor. This reduces the load on the main filter and ensures consistently high suction power throughout the work process.

- Copes with high volumes of generated dust thanks to cyclone technology
- Consistently high suction power as a result of reducing the load on the main filter
- Easy and safe to transport thanks to a stackable collection container with compact dimensions and a sturdy design
- Work flexibly in every application with and without CT pre-separator
- for combining with all Festool CT 26/36/48 dust extractors with and without the Autoclean function
- approved for dust categories L and M
- optimum use with machines and applications with high levels of dust

### Main applications
