Nilfisk Attix 44-2M IC M Class 42L Industrial Vacuum

Brand: Nilfisk
Code: C3757-MC

$1,298.00 +GST $1,492.70 incl. GST

Description

Nilfisk Attix 44-2M IC M Class 42L Industrial Vacuum

The ATTIX 44 dust extractor with its innovative filtration system, improved performance and robust design represents a superior solution for professionals looking for a safe and reliable machine with large capacity. ATTIX 44 comes with more suction power, sealed dust system, automatic filter cleaning and many other user benefits designed to meet the tough requirements in the construction and other industries when picking up bigger amounts of dust.

ATTIX 44 offers a remarkable productivity thanks to the automatic filter cleaning system InfiniClean™. The InfiniClean™ system ensures continuously cleaning of the filter during operation using a reversed air-flow pulse, keeping suction performance on a high level. The downtime is reduced significantly, as the container can be filled up without filter maintenance – even in the most demanding fine dust applications. Also the washable PTFE long-life filter minimizes maintenance and reduces the overall service cost.

Easy handling and user-friendliness – also when it comes to transportation from one working site to another – are other valuable features for the ATTIX 44 dust extractor. All models offer flexible storage solutions for tools and accessories, so everything you need is at hand.

Features

- InfiniClean™ – Automatic filter cleaning system with minimized performance loss
- PTFE long-life filter with non-stick membrane and minimum 99.9% filtration efficiency
- Dust class M certification

- Unique dual filter solution available with HEPA filtration
- 42 litre container with steel castors and robust bumper
- MultiFit accessory system for the ultimate in task flexibility
- Flexible rubber straps, tool box storage and optional trolley handle for convenient storage and transport
- Optional motor cooling filter, exhaust air collector and Long-Life filter bag

Specifications

Model No	107412106
Weight	16kg
Dimensions	565x385x605mm
Main filter type	PTFE
Cable length	7.5m
Airflow rate	4500 l/min
Vacuum	250mbar/25kPa
Power	1400W
Mains connection	230v @ 50-60Hz
Working sound level	60dB(A)
Container volume	42 l
Filter cleaning system	InfiniClean
Softstart	Included
Anti-static system	Included
Motor speed control	Included
Automatic on/off for electric tools	Included
