RUPES Compact Mobile Dust Extraction Unit S130EL

Brand: Rupes
Code: C3885

$1,025.22 +GST $1,179.00 incl. GST

Description

RUPES Compact Mobile Dust Extraction Unit S130EL

- 1200W
- Versatile and compact dust extraction unit with automatic filter cleaning
- 5Kg Dust bag capacity
- 30L Container volume

RUPES is a pioneer in the field of industrial power tools, from the launch of the world's first portable electric sander to the wide range of engineered power tools systems it manufactures today RUPES continues to innovate.

With a 1200 watt motor the RUS130EL is an extremely versatile and compact dust extraction unit, providing dust extraction for an electric tool. The operator can choose between manual or automatic mode. The automatic mode can be selected by means of the special patented electronic board for electric tools with a maximum power of 2400 Watts.

To ensure maximum extraction efficiency under all working conditions, the S1, version E extractors have an automatic filter cleaning system (RUPES patent). By means of a system of valves, the air flow passing through the filters is inverted in alternation every 30 seconds, thus ensuring efficient cleaning action. With this innovative system, the operator is able to continue working without any interruption of or reduction in the extraction process.

Supplied with a multipurpose swivel extraction attachment that makes it possible to use extraction hoses with diameters of 25, 29, 38 and 50 mm, making the extractor adaptable to any application. This model comes complete with a 4m hose and filter bag.
