C2721-18	1.8mm	\$338.26

### Description

#### Star EVO-T-2F Pressure Pot Spray Gun

The Star® EVO-T-2F high transfer efficiency pressure fed spray gun is designed to be used with a pressure pot or low pressure pump.

- The patented EVO-T® air cap design provides ultra-fine finish and excellent transfer efficiency exceeding 72%, resulting in very low overspray.
- Strong forged body has colour anodization throughout the fluid passages making it suitable for both solvent and water borne paints.
- 1.2mm tip size
- Light and ergonomic for ease of use.
- Quick threading for both air cap and fluid nozzle.
- Adjustment controls with calibration marks.
- Atomisation pressure: 19 - 23psi
- Air consumption: 320-410 l/m (12-15 cfm)
