

Starmix iPulse Dust Extractor L-Class Vacuum AISP35L

Brand: Starmix
Code: C2108-L

\$1,445.00 +GST \$1,661.75 incl. GST

Description

Starmix iPulse Dust Extractor L-Class Vacuum AISP35L Industrial continuous-run iPulse self-cleaning wet & dry dust extractor vacuum for heavy construction and trade use. The NEW Starmix iPulse-Series Dust Extractor has been specially developed for hard and heavy-duty continuous use in industry, in the workshop and on the construction site. The patented intelligent permanent filter cleaning system iPulse sets this machine apart in effective performance.

DDM Pressure Difference Control (Intelligent)

- Precisely accurate, timely filter cleaning as and when required
- Filter overload is avoided, thus achieving a much better cleaning result
- The vibrating unit is not activated unnecessarily

300g Cleaning Power (Powerful)

- Filter cleaning within only 3.5 seconds per filter
- Thanks to the effective force of 300g, even the most stubborn dust is removed
- Significantly reduced noise

Constantly High Air Flow (Effective)

- Permanent Clean technology allows for cleaning during operation – which saves time and money
- The air flow is not interrupted during cleaning, so no dust escapes
- Also suitable for damp dust, water and sludge

Product Specification

The accessories included allow the machine to be used for normal vacuuming applications, including wet use. **Features**

- 35L double-walled, special-plastic-container with plain inner walls for easy cleaning
- Auto electromagnetic pulse filter cleaning with “Permanent Clean” – cleans the filters permanently during the vacuuming process – without interruption of the intake flow!
- Appliance socket with automatic ON/OFF switch
- Step-less Speed control
- Volume flow display
- Gentle start control
- Electronic after-running feature
- Water detection with sensor switch-off
- Carrying handle with retractable cable hook and hose take-up
- Accessory department
- Storage space e.g. for tools and accessories
- Big, strengthened wheels and guide rolls
- Flush, stable canister clips
- L-Class filtration
- 30 Month Warranty

Specifications

Power	1600W
Max air flow	64 l/s
Max vacuum	259 mbar
Container - Gross	35L
Container - Dust	25L
Container - Water	22L
Dimensions (L x W x H)	530x400x550mm
Sound level	69dB(A)
Weight	15.7 kg
Cable length	8m

What's Included

Qty	Description	Code
1	Flexible suction hose (3 m)	413235

Product Specification
