

Duravac M-Class 30L Wet And Dry Vacuum PRO31M

Brand: Duravac
Code: C1704

\$595.00 +GST \$684.25 incl. GST

Description

Duravac M-Class 30L Wet And Dry Vacuum PRO31M

When working with medium risk dusts you need serious protection, certified M Class, the PRO31M is ideal for safe suction of high-risk dusts such as concrete, paint, and wood (including MDF).

With the M-Class certification the vacuum cleaner filters catch 99.9% of dust (under 2 microns), reducing the risk of inhaling harmful dusts.

The DURAVAC PRO31M is an innovative vacuum dust extractor designed to work together with power tools such as drills and sanders.

To clean the filter you just need to push a button and it will be ready to use. It is also equipped with a multi-stage filtration system consisting of a microfibre bag and a HEPA H13 cartridge – thanks to the bag you avoid clogging the cartridge.

Features:

Multi-stage filtration with H13 HEPA filter and Microfiber as standard.

Clean filter button – Avoids exposure to harmful dusts when cleaning the vacuum.

Powertool connection socket with synchronised starting.

Product Specification

Drain valve for easy and fast tank emptying.

Constant high suction performance.

Bag full indicator alerts user to clogging issue or if filter is full, avoiding unnecessary exposure to harmful dust.

Specifications

Power	1400W
Capacity	30L
Cable Length	8.5m
Hose Length	2.5m
Air Flow	3600 l/min
Filtration Class	M-Class
