

Festool CTMC MIDI 15I M Class 18V Cordless Mobile Dust Extractor

Brand: Festool
Code: C2115-MBAT

\$1,235.05 +GST \$1,420.31 incl. GST

Description

Festool CTMC MIDI 15I M Class 18V Cordless Mobile Dust Extractor Vacuum

Compact suction power without a cable. Perfected for your cordless tools.

Batteries and charger not included.

Features

Comparable power to your corded version thanks to the 36 V turbine with 2 x 18 V battery packs (4.0/5.2/8.0 Ah). This makes it ideal for mobile sawing, sanding or drilling.

Ideal combination with Festool cordless tools. Convenient and fast: The extractor switches on automatically via the Bluetooth® battery pack.

Switching on the extractor via the remote control directly on the suction hose saves you a trip to the extractor. Ideal for occasional cleaning tasks. Adjustable suction power in three levels. The appropriate level can be selected depending on the application, which increases the battery runtime.

With four battery packs and the TCL 6 DUO rapid charger, work can be done in most cordless applications without interruptions. Smooth and effortless. The suction hose will impress you with flexible handling and a long service life. It glides over every edge and possesses conical geometry for increased suction power.

Product Specification

The large internal hose holder makes it easy to stow the suction hose, ensuring safe and clean transport.

With the manual main filter and filter bag dedusting, the suction power can be quickly and easily recovered when the filter or filter bag is clogged. This significantly increases the fill level.

Quick, easy and tool-free. The attachable accessory case means that you have everything to hand. It offers space for additional battery packs and cleaning accessories (case available as an accessory).

The cordless dust extractor is approved for harmful dust particles in dust class M with limit values $\geq 0.1 \text{ mg/m}^3$. It is suitable for the extraction of wood and mineral dust.

The flat storage area on top of the hose holder can be used as a seat or as a shelf for working materials. Thanks to T-LOC, the extractor can be coupled with Systainers.

MAIN APPLICATIONS

- On-site extraction for cordless tools for minor or brief sanding, sawing and drilling work
- Ideal for mobile use in service and installation work and for final cleaning
- Suitable for both wet and dry extraction (special wet filter required for wet extraction)
- For hazardous wood dust and mineral dust from dust class M with limit values $> 0.1 \text{ mg/m}^3$

Specifications

Maximum Airflow (litres per minute)	3,100 l/min
Maximum Vacuum (Pa)	19,000 Pa
Container/Filter Bag Capacity (litres)	15/12.5 L
Battery Voltage (V)	36 V
Battery Capacity (Ah)	4,0 / 5,2 / 8,0 Ah
Dust Approval Rating	Dust Class M - medium risk dust such as mineral and wood dust
Dimensions - L x W x H (mm)	550 x 320 x 495 mm
Technology	Bluetooth®
Drive Type	Battery
Run time 2 x 4.0Ah	12 - 22 min
Run time 2 x 5.2Ah	16 - 30 min
Run time 2 x 8.0Ah	24 - 45 min
