Description

Colorex RexBoard Cardboard Floor Protection Roll 900mm

The ultimate in floor protection where heavy-duty protection is required. Typically used on building sites by building contractors, painters, plasterers and any professional tradesman needing heavy-duty floor protection. Colorex RexBoard is fast and easy to lay, is re-usable, and its high strength, durability and water resistant properties make it the ideal protection medium. Use to protect timber flooring, carpeted areas, polished concrete stone and vinyl tiled areas etc.

Temporary flooring protection often called Builders Board is ideal for protecting floors during building and renovation projects. This heavy duty cardboard is perfect for hard floors like wooden floors.
