Description

ZipPole 4-Pack 1.3m-3.2m ZIP04

The ZipPole™ product is our new low-cost steel product. About half the cost of our original aluminium poles, the ZipPole™ product is strong, lightweight and compact. The kit gives you everything you need to make a 9m long barrier. ZipPole™ spring loaded poles have a baked-on finish and weigh just 1.5lbs each. They can accept plastic or cloth sheeting up to 8 mils thick and can be used with Foam Rails™, Side Packs™, Heavy Duty or Standard Zippers. Poles can be placed up to 3m apart or closer if there is a lot of air movement. Use a GripDisk™ under each pole to secure it on smooth flooring like vinyl or wood.
