

Intex Automatic Taper 1350mm (53")

Brand: Intex
Code: C7329

\$2,795.00 +GST \$3,214.25 incl. GST

Description

Intex Automatic Taper 1350mm (53")

Automatically dispenses and applies joint tape and the correct amount of compound simultaneously to any wall, ceiling or corner joint regardless of operator speed. The lightweight and durable design Built TradeTuff® handmade with USA billet aluminium and stainless steel components. The long reach eliminates the need for stools and scaffolding. High compound capacity means fewer trips to the pump. Enlarged roller wheels eliminate tape drag upon initial contact. The knurled sleeve provides a positive grip and the pull ring enables a smooth cutting system. Efficient cleaning features include multiple inner unit access points and a unique Quick-Release head cap. Loads compound via the Loading Pump and Gooseneck Attachment. 5-year warranty.
