Description

Festool OF 1010 W Plunge Router Plus

The Festool OF 1010 router is the ideal compact tool for profiling, trenching, rebating and routing dovetails. It's lightweight and balanced, ergonomic design makes it perfect for one handed operation. MMC electronics adapt the machine to the working material and provide temperature monitoring, protecting your investment. Festool's routing systems easily allow you to adopt the router to a range of tasks, such as creating perfect dovetail joins, accurate adjustable cabinet holes or using the router as a bench mounted tool. Combined with a Festool Dust Extractor, the extraction hood and chip deflector guarantee clean working conditions.
