### Description

Festool 260mm Sliding Compound Mitre Saw KAPEX KS 120R

The KAPEX Sliding Compound Mitre Saw is a true example of Festool's innovation. It's unique design allows maximum cutting capacity of the 10" saw blade, enabling you to cut 120mm high skirting boards at their finished angle. Dual-line laser beams clearly mark the exact width of the cut for positioning the work piece from the left or right. Fine adjustments give millimetre precision for angle and bevel cuts, and the twin sliding rails ensure smooth guidance of the saw blade for the perfect cut. The compact design means no space is required behind the saw, allowing you to work easily in restricted spaces. The KAPEX is covered by Festool's comprehensive 3-year warranty.

### Applications

- Cut skirting boards and cornices up to 120 mm height
- Cutting boards and panels up to 305 x 88 mm
- Cutting crown moulding up to 168 mm at finished angle
- Cutting framing timber and beams up to 88 mm thick
- Dust free sawing with a Festool Dust Extractor

### Strengths And Benefits

- Twin-column design for accurate cuts
- Compact, lightweight design for easy transport and use in small areas
- Dual-line laser marks exact width of the cut
