Description

Festool TSC 55K 18V 160mm Cordless Plunge Saw 5.2Ah XL Set in Systainer

Often, even just a millisecond is crucial: The kickback is the most common cause of serious injuries when using a plunge-cut saw.

Our unique KickbackStop therefore stops the saw blade of our cordless plunge-cut saw in the blink of an eye, and so not only protects your workpiece but also minimises the risk of injury to your hands. In addition, this now allows users to make powerful, precise cuts at up to twice the speed with an extended battery range.

When combined, our new generation of saw blades allows for maximum cutting performance and perfect cutting quality. The sawing system is rounded off with clever system accessories, such as guide rails, an angle stop, splinter guard and saw table.

- The KickbackStop reduces the risk of injury from kickback when sawing or plunging the tool into the workpiece
- Concentrated torque and up to twice as fast work progress with an increased saw blade service life
- Brushless EC-TEC motor combined with lithium-ion batteries for maximum cutting power
- The KickbackStop can be deactivated for individual cuts
- Top-class sawing system thanks to a variety of accessories

Main applications

- Precise circular in materials up to 55 mm thick

Product Specification
