

Festool OF 1400 W Plunge Router

Brand: Festool
Code: C6646

\$1,512.25 +GST \$1,739.09 incl. GST

Description

Festool OF 1400 W Plunge Router

The Festool OF 1400 router is our most versatile router, producing 1400 W of power in a machine that weighs less than 5 kg. Small enough to be extremely manoeuvrable, it's large 70 mm routing stroke ensures sufficient depth when recessing fittings or routing with templates. Tool free copying ring changes and quick, easy cutter changes allow you to adapt the router to the work piece efficiently. Accurate depth setting with zero function allows routing depth to be adjusted quickly, without the need for recalculation. Used with a dust hood and a Festool Dust Extractor, up to 99% of all chips are extracted during edge routing.

Specifications

Motor Type	Brushed
Power Source	Corded
Power Consumption	1,400W
No Load Speed	10,000 - 22,500rpm
Power Lead Type	Plug-it Lead

Product Specification
