Description

Rupes 150mm Random Orbital Sander

The new ER303TE and ER305TE Random Orbital Sanders, with respectively 3mm and 5mm orbits, are characterized by high silence and ergonomic shape.

These powerful random orbital sanders, with speed control in series, have been ergonomically designed with a comfortable soft cover, which ensures a secure grip and good driving, and with a special integrated balancing system that allows the user to work with vibrations very low and provides comfortable and joint-friendly working conditions.

The Random orbital sander 3-5mm orbit both tools are equipped with a self-contained and highly effective suction system. The generated sanding dust is collected in the patented RUPES Green Tech filter.

Specifications

Pad Size	150mm
