SMART MultiTool Professional Kit (with intelliTORQ Quick Release) SMT300P

The new SMART Multi-Tool SMT300P Kit is a must for all tradesmen. It features a new intelliTORQ quick release blade system.

Features

- Hi-torque 300w motor for improved performance and torque
- New intelliTORQ technology gives constant speed/power no matter what the application or depth
- Simply set the speed and the motor automatically adjusts to give a constant stream of power!
- New 'tool-less' blade change
- LED Working light - clear focus on the cutting area even in tight spaces
- Comes with robust carry case
- No-Load Speed: 11000-20000/min
- Rubber over-mould Grip
- Robust aluminium Gear Box
- Heavy-duty allow gousing and robust blade change mechanism
- Ergonomic rubberised grip

Comes with

- SMART Multi-Tool Machine SMT300
- 1 x 35mm Wood "FANG" Hard Point Blade 035HCT
- 1 x 32mm Wood with Nails "NAIL BUSTER" Blade 032BM
