

Tobin Pocket Eyewash Flask 200ml

Brand: Tobin
Code: C1061

\$34.90 +GST \$40.14 incl. GST

Description

Tobin Pocket Eyewash Flask 200ml

- If it is not practical to have a eyewash station within arms reach, it is possible to carry a personal Pocket Eyewash Flask in the breast pocket.
- The pocket flask is not sufficient in itself to wash chemicals from the eyes, but can be used on the way to a proper eyewash station.
- Suitable for laboratories, building sites, cleaning staff or anyone with mobile working conditions.
- Contains: 200ml
- Optional: Wire Stand for the pocket flask.

Effective, sterile and safe eyewashes for industrial use. Tobin's Eyewash Systems are a well proven, quick and safe way to wash chemicals from the eyes. Chemicals in the eye cause serious damage within 1-5 seconds. Washing that begins within a few seconds can be decisive in minimising eye damage. With Tobin an eyewash bottle can be within arms' reach to reduce response time. Tobin's bottle is made to empty under natural pressure, giving a soft flow with 6 streams of sterile saline solution. When the bottom air vent is opened a patient cannot increase the flow by squeezing the bottle.
