Description

Indalex Aluminium Planks

- Durable Heavy Duty Industrial Aluminium Plank
- Dimension: 225mm x 60mm
- Load Rating: 225kg per 4m span
- Conforms to the Australian and New Zealand Standards 1577

Features:

- High tensile structural aluminium alloy for increased durability.
- Anodized for better corrosion resistance and lower retention of dirt and grime.
- Designed to be torsionally stiff to reduce sag.
- Slip resistant surface.
- Wide work surface.
- Strong and durable.
- Rubber strips for increased non slip performance are fitted on the bottom side to stop the plank from moving against the scaffold or trestles.
- Manufactured to Australian and New Zealand Standards AS/NZS1577.
