Description

Festool TCL6 Rapid Duo Battery Charger

On its two spaces, the DUO rapid charger charges two battery packs at the same time.

Particularly practical: You no longer need to look for another socket for a second charger – making work easy and saving time on construction sites, in workshops and in vehicles.

Suitable for virtually all battery packs from the 10.8 V, 14.4 V and 18 V classes, whether Li-HighPower Compact battery packs, the handy Ergo battery packs or all AIRSTREAM variants (with the exception of: BP-XS for CXS/TXS 10.8 V).

The separate LED indicators for charging progress on the two charging spaces indicate the current charge status of each battery pack at any time.
